About This Game

Ren's virginity is in danger! His childhood friend Riria was frantically trying to take off his clothes and begging to touch him. The truth is that she's actually a succubus and was embarrassed not having any sexual experience at her age.

He was suddenly pushed into the school's special dormitory. It was a girls' dormitory full of useless demons: Yuu, the yuki-onna who was extremely sensitive to the cold; Arle, the mummy girl who is uncomfortable with tightness and loves the feeling of freedom; Emiri, the hopeless angel who has no sense of modesty and who is also his step sister; and, Miyabi, the witch who passionately develops a love drug to bring happiness to the world. The dormitory was built to rehabilitate them and since he was mistakenly moved there, he was assigned as an assistant to watch over them. His happy and troublesome days as a teacher for these cute but incompetent demons has begun.

Characters

Kiritani Riria (VA: Ogura Yui)

Real name: Lilia Nunnally Eisenstadt

A puppy-like childhood friend with a calming aura. Her parents and Ren's have been friends long before, and she has always been with Ren ever since she can remember. Riria is bad at thinking about complex things, preferring to brush things off with a smile. Surprisingly stubborn once she digs her heels in, and has a tendency to rush into things. Especially in anything related to lewd matters.

Riria is concerned about her childish side, and is also easily embarrassed. Even though she is a succubus, she isn't unreserved; only possessing an insatiable sexual desire for her beloved, but clinging tightly onto her chastity. "Have a succubus as your bride and you'll be blessed with a peaceful family, a happy partner, and wonderful children" is what they say, but her motto is "My rival is their right hand." A succubus's saliva is as viscous as Pepe-rice (rice mixed with pepperoncini) -- time to dig in~

"I don't want you saying other girls are lewder! I'm the lewdest! Geez!"

Childish Succubus

Race: Succubus

Height: 156 cm

Fujima Emiri (VA: Tachibana Mao)

Real name: Emilia Ultimecia

Ren's stepsister with an upbeat personality, and a fallen angel who clings onto her brother. Currently in her first year of school.

The two are close enough that they can joke around with each other, but doesn't forget her special sister's privilege of being doted on. A long time ago, Emiri used to be a cupid-inspired idol, but decided to retire when urged to become a variety show idol. Having grown sick of the pure and simple life of an angel, she ran away from home. There she met Ren and grew fond of him, and decided to become his little sister.

With Ren's parents constantly away on long trips, she and him are practically alone. Whenever Ren grows silent, she suddenly barges into his room, or sometimes digs around the tissues in his garbage -- Emiri is quite the busybody. Also, she can apparently inherit the name of Cupid thanks to her family standing, but absolutely refuses because she would "never want some lame name that sounds like mayonnaise". However, her arrows of love as a fallen angel are aimed straight at her brother.

"Even if we're living under the same roof, I've never had a lucky perv moment catching Ren when he's whacking it."

Brother-loving Stepsister Fallen Angel

Race: Angel

Height: 152 cm

Three sizes: B86 / W53 / H83

Blood type: B

Likes: Skinship with brother, teasing her brother like a sadist

Ayasaki Yuu (VA: Ayumi Sarah)

Real name: Mashiro Aoyuki

A yuki-onna who is extremely sensitive to the cold, currently in second year. Though she doesn't say much, she likes to talk. Though her expressions aren't very pronounced, she has a wide range of emotions... A girl's heart is complex. Yuu has a strong metabolism and sweats profusely if it gets just a little hot, or eats something even mildly spicy. Even if her face is bright red, she brushes it off as "nothing", but her obstinacy quickly gives way and she gives up honestly.

Yuu gets the chills quite easily from lower temperatures and likes to cling onto Ren, but whenever she starts sweating, she gets a little moist and sticky, and her smell and sensations get rather arousing. Also, even though she looks pretty frigid, she's actually heavily into pleasuring herself. Despite having lived in an isolated yuki-onna village, she can use computers and other modern devices perfectly. Sweaty and voluptuous... she's also a real perv in that sense.

*"It's still so cold even in July. Share some of your warmth with me. *hug*"*

Arisegawa Arle (CV: Ueda Akane)
Real name: Arle Titi Melnar Anebhiij (etc.)

A very polite, very serious, very methodical, very rational mummy girl; first year. She doesn't like tight clothes on her body however, and apparently doesn't wear clothes at all. Even without clothes, her skin is incredibly sensitive, and she cannot walk comfortably because she's conscious about the clothes she's wearing. Although it's embarrassing for her because she finds it physically disagreeable, she has no choice but to tough it out whenever she goes outside. On a side note, having bandages wrapped around themselves is the formal dress for a mummy; in these modern times, only traditional families still wear them.

At school and in the dormitory, she takes care of pets as the sole member of the biology club. She feels at ease because animals don't care about being naked or not. Arle also can't sleep right with a different bed or pillow, so she brought over her personal coffin from her home. The coffin is fully equipped with both power and air conditioning: perfect for the ultimate lazing around.

"Animals don't have to wear clothes, so why can't we all stay naked...? Hah..."

Mummy Girl who Hates Tight Clothes

Race: Mummy

Height: 149 cm

Three sizes: B78 / W52 / H80

Blood type: A

Birthday: September 16

Likes: Taking care of pets, reading, doing whatever she can while naked

Aoi Miyabi (VA: Tezuka Ryouko)
Real name: Meltina Lamiales

An older sister type of girl who intends to succeed her family's pharmaceutical business, currently in her school's third year. Refreshing and candid, she is sports-minded and would rather charge into things head-on rather than think about them. Miyabi takes good care of people regardless of who they are so she's quite popular. Rather famous, in fact, as she also does modeling work for magazines on the side. Her abilities in sports are so great that she's often asked to help out in the sports clubs, but her academics are catastrophic. The way she formulates medicine is rough and imprecise, so her parents are also against her becoming a pharmacist. That her studies are so terrible that it's practically impossible for her to get national certification provides some relief for her parents.

Concerned about the declining birth rate and issues of infertility, she believes that if she can develop a drug to boost energy and vigor, then the world can be a happier place. She tries to create her own original drug for that through learning by imitation, but fails and becomes a victim of her own aphrodisiac medicines. As a result, she has a lot of experience in self-pleasure. By the way, she prefers inserting her fingers inside.

"Haven't you thought of how many people could be happy if there was a super drug that can supercharge your vitality?"

Energy Potion Researching Clueless Witch

Height: 166 cm

Three sizes: B84 / W58 / H88

Blood type: O

Birthday: February 11

Likes: Formulating original medicines, enjoying a relaxing teatime by herself

Shibasaki Rin (VA: Fujisaki Usa)

Real name: Lyr

A serious and straightforward kind of underclassman of the Tigerkin race, in first year. An athletic and super mega positive girl. To the point where she should maybe take a step back once in a while. Lovable idiot. On full moons, she's supposed to turn into a were cat, but only her tail and ears can change. She goes to the school to conquer this. Brimming with curiosity, she normally dashes around and about, causing a ruckus. She, Emiri, and Arle are classmates and good friends, and are often together.

Rin works part time at a convenience store so she doesn't cause her family trouble; she loves the bentos that are about to be thrown out from expiry. There are tears when she has near-expiration bento for lunch, but if it's barbeque bento then the happiness continues 'til the next day. When a tiger enters its mating season, it's said to mate over a hundred times in a period of two days. It seems that she isn't an exception. Her lower lips get really lose thanks to her ancestors' markings.

"I'm not a cat! I'm a tiger, okay?! Nyarghh!"

Tiger Girl who can only change her Ears and Tail

Race: Tiger Girl

Height: 153 cm

Three sizes: B83 / W54 / H85

Blood type: B

Birthday: August 31

Likes: Fishing, hard bar snacks, going to the sea to fish for food on her days off

Ryusenji Aifa (CV: Shirayuki Midori)

Real name: Tama Bahamut

A teacher whose short height is matched by her lack of maturity. Though she looks perfectly nice and cute, her insides are a swirling mass of cynicism and neuroses. She has an uncanny ability to pick up when someone makes fun of her, and her temper is exceedingly short. But her anger is also quick to abate, so everyone pretty much loves her. Though she comes from a distinguished family, she's quite the bungler and her parents call her a rotten fruit. Her grandfather spoiled her when she grew up, however, so she ended up like this.

Aifa of course doesn't do her job at all, but she doesn't do the chores either, instead immersing herself completely in games and anime. Still, her body is maturing as it should for her age, with her youthful parts down there loosening up somewhat. Even for someone of a demonic race, her woman's body sure is full of mysteries.

"If someone here says I became a teacher thanks to connections then it's hell for the lot of you!"

Useless Short China Girl Teacher

Race: Dragon

Height: 145 cm

Three sizes: B73 / W50 / H76

Blood type: AB

Birthday: January 1

Likes: Anime, net surfing, complaining about whatever's going on

Kiritani Reika (VA: Kawashima Rino)
Real name: Lievetta Nunnally Eisenstadt

Reika is both Riria's mother and something like Ren's foster parent, as well as the headmaster of the school the two attend. She's also the bridge between this world and that, taking care of the exchange students. Though curt and a straight shooter who doesn't mince words, she isn't by any means unfair. In fact, many people look up to her for as someone to rely on.

Her daughter's feebleness rather annoys her, and she does want Riria to become a great succubus. Also, her sexual frustration is building up because her husband hasn't come back home in a long time. Because succubi are incredibly devoted in their service, she finds herself very troubled as she can do nothing but wait impatiently.

"A virgin wouldn't understand this deep love and all this other stuff, you dumb girl!"

good character art

funny story

demon waifu

and support for more vn with 18+ patch on steam

69/69 can't wait for fan disk localization. A pretty ok nukige VN. Writing is pretty funny so if you are looking for a story that will be JERKING your tears in a comedic way, this one is pretty spot-on. Pun intended.

H scenes are ok I guess. Just do not compare them to something like Ef - A Tale of Two.

Art is so cute and vibrant it will actually burn your eyes out.

Get it if you need games to play with one hand or you just wanna laugh for a few hours.. Once a demon waifu always a demon waifu. This is one of my favourite games of all time. All the characters are extremely cute and have unique personalities.

Pros:

- Cute Characters
- Great story
- unique characteristics to each heroine and sub-heroines
- wide variety of Kinks
- Plenty of H-scenes
- H-scenes are done really well
- Little references to games and movies hidden in there

Cons:

- (Only R18) Some of the stuff that happens is questionable if you not into it (Kinky stuff I mean)
- The characteristic of the main character changes depending on what girl your dating and some of them can turn the main character into a♥♥♥♥♥(metaphorically)

If you like Sexy demon anime girls then this is the game to play

I rate it 10/10. Heresy? I think not! OPPAI!OPPAI!OPPAI!!!

insert lenny face :) not perfect, but very good. Rin best girl.

also had some problems, game didn't open, but sekaiproject customer support answered very quickly.

Overall, I'm satisfied.

9/10 will play again, would recommend. So... this is a bit difficult of a VN to describe. See, this is a sex-filled game. A lot of sexual situations, a lot of innuendo, and some crude jokes. Thing is, there actually seem to be hints of a plot. Or at least decent writing in the non-sex scenes. Final conclusion is that it is Porn with Plot where they seem to balance.

The characters are funny. In fact, much of the interactions are funny, save the romantic ones in the routes themselves. This is also one of those VNs, where the sex scenes do add to the plot, so I would recommend the DLC (note: the scenes do have mosaic censorship).

All in all, recommend this to those who like comedic romances... with a little explicit added in.... first lets talk about the trailer because the trailer deserves a mention. i absolutely LOVE the trailer for how freaking energetic it is. its fast paced and it kinda gave me a vibe from another game that i cant remember what the f*ck it was. its basically my favorite trailer so far and its basically the reason why i bought this game. now for the game itself, was it worth the money? well lets start with the facts. this game is a hentai. meaning this is a game for adults. now what is one example of an adult theme that a hentai game would have? OH YEAH SEX!!!! yup this game is sexual as f*ck. it basically doesnt lay off the sex jokes for a minute for most of the game and when it does its sort of a cliched anime high school theme harem visual novel. and the sex jokes TOWER the amount of sex jokes in shimoneta and food wars. and shimoneta is about sex. so yup! its one of those games and i am honestly sick and tired of this reoccurring story in anime and games alike over and over again and it is already annoying. there are very few anime and games with the anime theme going on that doesnt have such a dull and cliched story. i am not going to lie about the fact that i like some anime with the classic japanese high school genre. and i was never a fan of an anime harem genre to begin with. the only harem anime that i guess is okay is high school dxd. now playing the game at the beginning i was concerned that it was gonna pull a "written in the sky" on me. if you played written in the sky then you have my condolences. THANK GOD IT WASNT. i was about to punch my computer if that were the case. i guess you can say this is sort of a cuter, more sexual version of doki doki literature club. except with more girls and less bloody. the reason why i compare the literature club to this game because it was actually the first visual novel i have ever had also it just popped into my mind. so anyways final thoughts about the game. as always from the creators which is SMILE entertainment, they never cease to disappoint with the graphics and the overall design of the game. these people know how to make a game. a good story is rare with them though. my problem with this and anime in general is that such good talent in animation has to be wasted on a story so dull and way overused as the anime high school and harem theme that it is basically the SAME ANIME that we see every freaking time! i was never a fan of harem or sex anime to begin with and let alone hentai. i actually hate that such talent is wasted on the creators f*cked up fantasy. that can get annoying. though i actually recommend watching shimoneta and high school dxd. but i guess i would give it the okay. if your not a fan of the casual high school theme or harems like myself then this is not your game to buy. but if you do then knock yourselves out. its not bad but i wouldnt call it good either. it has its flaws when it comes with the story but it is worth your money if you are a fan of anime harems. to me its tolerable because the animation and the designs of the characters are splendidly done. so overall i do like this game. and ill give it a thumbs up because of that.. Holy♥♥♥♥♥♥♥♥ The H scenes in this game are amazing. INCLUDES LEGAL LOLI ROUTE!!!!!!!!!!!!. Kill their men.

Sleep with their women.

This is the way of the doomslayer... THE DOOMSLAYER OF PUSS *airhorn dubstep*. Well , what can I say , such thing, another good sh1et from sekai project , a god dang fps game that give option of either having the .50 sniper blast inside or having your big♥♥♥♥♥♥♥♥shotgun blast outside

DAISUKI/10 - (Woofie A.K.A Weeb)

(gosh I'm cancer asf. I'VE WAITED 3 GODDAMN YEARS FOR THE ENGLISH TRANSLATION AND ITS FINALLY HERE YESSSSSS!. The panic button change the game's icon into Microsoft Paint "Untitled"

And a dank soul YOU DIED

INFINITY/10. It is a very well played game with extremely interesting and complex routes. The story behind each character is very interesting. The characters are very well done, the graphics are extremely well done. I love the fact that each character has its own final theme and that we can download wallpaper with the 5 main characters, but also create our own picture with all the characters as we want them. Music is very enjoyable and relaxing. This game makes you want to stop over, and if you finish it you will want to start playing it from the beginning again.
